

Powerhold 050 Cleaning Solvent

POWERHOLD 050

DESCRIPTION:

Powerhold 050 Cleaning Solvent is a reducer/thinner used to restore normal consistency to Powerhold 500 adhesive should it thicken due to prolonged exposure to air. Powerhold 050 can also be used to clean dried adhesive from floor covering and / or tools. PH 050 is non-flammable and is specially formulated to clean many different types of stains in carpet. Always test a small area to determine compatibility of floor covering with Powerhold 050.

DIRECTIONS:

1. Powerhold 050 Reducer/Cleaner to Powerhold 050 adhesive to restore normal consistency should they thicken due to prolonged exposure to air.
2. Do not add the Powerhold 050 Reducer/Cleaner if product thickened due to low temperatures 20°F or below.
3. If this occurs allow the adhesive to acclimate to room temperature, 60°F or higher until normal consistency is restored.
4. Application of direct heat through flame heat gun, heater etc. is **Not Recommended**.
5. Use Powerhold 050 to clean brushes, roller, and tools.
6. It is the sole responsibility of the installer to determine the suitability and compatibility of the adhesive for the end user's intended use.
