

PH-300

POWERHOLD

PLUS

300-Watt Glue Applicator System

- *Glue Down Tackstrip on Concrete*
- *Attach and Repair Hardwood Floors*
- *Set Metal, Vinyl or Rubber Moldings*
- *Set Flooring Ramps*

A professional glue applicator system for all your interior installation and repair needs!

POWERHOLD's PH-300 is not just a glue gun. It's a glue applicator system for almost any interior setting. For flooring installation, including tack strip installation, hardwood flooring (start & finish rows), floor transition ramps, interior wood trim, moldings, ceramic tile repair, and much more! With an adjustable high temperature range of a powerful 300 Watt heating element, it bonds virtually any material.

PH-300

POWERHOLD PLUS 300-Watt Glue Applicator System

The following features outperform competitor versions:

- **Powerful 300-Watt heating element**—designed for higher temperature and 30% greater glue dispensing output.
- **Adjustable Temperature Control** – allows temperature setting from 284°F to 446°F (140°C – 230°C)
- **Stroke Adjuster** – adjusts trigger output.
- **Ergonomic Handle and Trigger** – reduces trigger effort and enhances grip comfort.
- **Glue Stick Gauge: .43" – .45"** (11.0mm – 11.5mm)
- **Lightweight** – Compact size, non-fatigue.
- **Durable** – non-breakable handle.
- **Fast Activation** – tool is ready to use in under 5 minutes!
- **Drip-Free Nozzles** – no mess! Includes 2 types.
- **Durable Carrying Case**

System includes hard storage case, two nozzles and an adjustment tool.

POWERtite™ glue sticks sold separately.
