

PRODUCT DATA SHEET

POWERHOLD PROTECTIVE FILM FOR HARD SURFACES

Material Description: Designed for smooth, non-porous surfaces, such as linoleum, ceramic tile, cultured marble, bathtubs and laminate flooring.

Warnings: Do not apply to wet or damp surfaces or unfinished wood, natural marble or stone.
Not recommended for on-site finished hardwood floors.

On newly installed flooring, allow any curing process to completely finish before usage of this product.

When film may be exposed to temperatures over 95°, outdoor exposure or extremely heavy traffic, film should be inspected on a weekly basis and replaced as needed.

Physical Properties

Backing	LLDPE + LDPE
Adhesive	Acrylic
Thickness	2 mil
Color	Blue
Tensile Strength	Gf/10mm
Elongation at Break	650% MD 750% CD
1% Secant Modulus (Elasticity)	26.4 (ksi)
Adhesion Strength	Gf/25mm
Application Time	30 days
